	Nepean Ward (2 vacancies)	
1	Simon Mulvany <a href="mailto:simonmulvany@gmail.com">simonmulvany@gmail.com</a>	It is heartbreaking that limited Koala habitat on the Mornington Peninsula is being threatened. In my role at Savethebeesaustralia I have been effective protecting bees and habitat. I will use the savethebees platform to assist the campaign to save Arthur's seat. Regardless of the result of the election I am part of team fighting to stop the demolition of bushland from going ahead.
2	Sarah Race Mob: 0439 273 556 <a href="mailto:sarah@sarahracefornepean.com">sarah@sarahracefornepean.com</a>	Our Peninsula is unique and very precious and it's up to us to look after it, we're the guardians for future generations. The Hillview Quarry extension is a project with little community support, and would cause great devastation to our native flora and fauna, some of which are endangered. If I am elected I will advocate strongly for the protection of the Peninsula's unique environment.
3	Gary Naughton Mob: 0466 041 457 <a href="mailto:cnep@gnaisme.com">cnep@gnaisme.com</a>	I would love to play a proactive role preventing habitat loss, however the issue is a tough one to address. Economy, wealth and job creation V's the environment. It is a disappointing reflection on our culture that the environment suffers due to our human economic selfishness (hence Global Warming and its consequences). So much habitat on my end of the Peninsula has been lost to huge houses built on small lots for holiday purposes. When combined with bush-fire regulations, tennis courts and swimming pools there isn't much left. The Planning Scheme was designed to cater for housing population growth not holiday homes.
4	Susan Bissinger Mob: 0414 305 566 <a href="mailto:susan@nepeanvoters.com">susan@nepeanvoters.com</a>	I think it is a disgrace that the new 107 acre quarry is even being considered. If we are able to unite as Councillors, this would be an opportune time to really push this issue on a large front, I am sure that with full backing of the MPSC the State Planning Minister will hear what is being said loud and clear. A quarry is not something that will ever revert back to nature, so the natural environment, ecosystem and wildlife that is lost in the pursuit of commercial gain, will never be fully reinstated.
5	Mechelle Cheers Mob: 0447 112 109 <a href="mailto:cheers4nepean@gmail.com">cheers4nepean@gmail.com</a>	It makes no sense in a State that has an appalling record of biodiversity loss for deliberate and further flora and fauna destruction to even be considered let alone condoned by the Minister for Planning. The ethics of Hillview in by-passing the local Council and the voice of the Community is in this instance highly questionable!
6	Hugh Fraser Mob: 0418 379 335 <a href="mailto:hwfraser@vicbar.com.au">hwfraser@vicbar.com.au</a>	The very idea of blowing up and mining Arthurs Seat to make rock and sell it to earn money for the "charitable" Ross Trust, which has environmental objectives, is one of the most loathsome propositions I have ever come across in my entire professional life. There are number of other and more economic sites available without the deleterious environmental impact of reopening the abandoned old Pioneer quarry on Arthurs Seat. Whether this proposition can be displaced by the Environmental Effects Statement and technical reports, remains to be seen.
7	Mark Davis Mob: 0413 775 837 <a href="mailto:markdavisfornepean@gmail.com">markdavisfornepean@gmail.com</a>
